Module 6
Course Conclusion

Welcome to Module 3

0:00 / 0:00

Identity control, affixed those we considered mundane and others, but also 'how we move through the world. In this module, you will discover different ways artists express, explore, and question identity.

The module begins with a close look at three works of art:

- a brilliant self-portrait by Frida Kahlo
- Glenn Ligon's amalgamation of Norman through the descriptions of others
- Jenny Marlen's exploration of visibility through an iconic image of Marilyn Monroe

You'll consider a range of approaches to the theme of identity—from artists at every step of with their mothers, and how artists challenge and question assumptions about identity. Our Template artworks ranging from Henri Matisse's symbolic self-portrait to Renee Cox's photographic choice. Dig into the information of a young refugee (next level and I).

After being a archaeology of the personal readings and resources, we encourage you. Yourself in the discussion forums.
