Seeing Through Photographs ✕

Today's goal • 3/3 items

Module 1
Introduction to Seeing Through Photographs

- ✓ Welcome to Seeing Through Photographs! Reading • 3 min
- ✓ Getting Started: How Does This Course Work? Reading • 6 min
- ✓ Seeing Through Photographs Course Trailer Video • 1 min
- ✓ Sarah Meister Introduces the Course Video • 2 min
- ✓ Marvin Heiferman on "Photography Changes Everything" Video • 3 min
- ✓ Optional Discussion Forum Prompts Reading • 10 min
- ✓ Optional Readings and Resources Reading • 10 min

Module 2
One Subject, Many Perspectives

Part I: Introduction

- ✓ Introduction to Module 1 Reading • 2 min
- ✓ Artistic Equivalents Reading • 2 min
- ✓ Vik Muniz on Photographing the Familiar Video • 3 min

Part II: Telescopes and Cameras

- ✓ Introduction to Part II: Surface, Scale, and Technology Video • 2 min
- ✓ Practical Scenario Real-world application • 5 min
- ✓ Moons and Surfaces Reading • 5 min
- ✓ Hear More: Sarah Meister on Eugène Atget. Pendant l'éclipse. 1912 Video • 3 min
- ✓ Hear More: Liz Deschenes on Tilt/Swing (360° field of vision, version 1), 2009 Video • 1 min
- ✓ Surface, Scale, Technology Dialogue • 15 min

Part III: Seeing the Unseen

- ✓ Introduction to Part III: Man on the Moon Video • 2 min
- ○ **Photographs by NASA** Reading • 2 min
- ○ Hear More: Sarah Meister on U.S.G.S. and NASA, Surveyor III. Surface of the Moon, Day 319, W-F. 1967 Video • 1 min
- ○ Practical Scenario Real-world application • 5 min
- ○ Who Does the Moon Belong To? Reading • 4 min

Part IV: It's Only a Paper Moon

- ○ Introduction to Part IV: Vernacular and Fine Art Photographs of the Moon Video • 3 min
- ○ Moon Phases Reading • 6 min
- ○ Hear More: Sarah Meister on Ansel Adams. Moonrise, Hernandez, New Mexico. 1941 Video • 3 min
- ○ Man on the Moon and Paper Moons Dialogue • 15 min

Part V: Review and Respond

- ○ Optional Readings and Resources Reading • 10 min
- ○ Practice Memory Check Practice Assignment • 30 min
- ○ Optional Discussion Prompts and Creative Challenges Reading • 10 min

Module 3
Documents and the Documentary

Module 4
One and Another

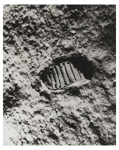
Module 5
Constructing Narratives, Challenging Histories

Module 6
Pictures of People

Module 7
Ocean of Images

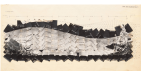
Photographs by NASA

0:37 / 1:43 1x



NASA. *View of Astronaut Footprint in Lunar Soil*. July 20, 1969. Gelatin silver print, 9 1/2 × 7 9/16" (24.1 × 19.2 cm). The Museum of Modern Art, New York. The New York Times Collection. © 2020 NASA

In 1969, American astronauts Edwin (Buzz) Aldrin and Neil Armstrong became the first people ever to walk on the moon. Aldrin took this close-up photograph of his footprint on the moon's surface, an image that helped scientists and others better understand the material character of the terrain. One of thousands of photographs taken during the expedition, it became an iconic representation of the moon landing and an emblem of humankind's achievements in exploring outer space. Anyone could order prints of these photographs, which became popular well outside scientific circles.



U.S. Geological Survey and NASA, Surveyor III. *Surface of the Moon, Day 319, W-F*. 1967. Cut and stapled gelatin silver prints with ink and gouache on diazotype, 14 1/2 × 30 3/8" (36.9 × 77.1 cm). The Museum of Modern Art, New York. John Parkinson III Fund

By collaging together individual photographs of small sections of the moon's surface, the U.S. Geological Survey and NASA created this handcrafted topographical map two years before the first spaceflight landed, giving humans direct access to the moon. Though it was assembled expressly for scientific purposes, the map recalls the artistic practices of photomontage and collage and demonstrates that even the most functional uses of photography may result in compelling compositions.
