

Two parts

Answer all parts of this question. Each part is worth 10 points.

Two parts

1. Which of the following is NOT true about a queue? (10 points)
- ☐ It is a linear data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
2. Which of the following is NOT true about a stack? (10 points)
- ☐ It is a linear data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
3. Which of the following is NOT true about a linked list? (10 points)
- ☐ It is a linear data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
4. Which of the following is NOT true about a binary tree? (10 points)
- ☐ It is a tree data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
5. Which of the following is NOT true about a binary search tree? (10 points)
- ☐ It is a tree data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
6. Which of the following is NOT true about a binary heap? (10 points)
- ☐ It is a tree data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
7. Which of the following is NOT true about a binary heap? (10 points)
- ☐ It is a tree data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
8. Which of the following is NOT true about a binary heap? (10 points)
- ☐ It is a tree data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
9. Which of the following is NOT true about a binary heap? (10 points)
- ☐ It is a tree data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
10. Which of the following is NOT true about a binary heap? (10 points)
- ☐ It is a tree data structure.
 - ☐ It is a first-in, first-out data structure.
 - ☐ It is a last-in, first-out data structure.
 - ☐ It is a first-in, last-out data structure.
