  Graded Assignment • Grade: 90%
- ○ **Evolution of Royal Burials**
  Discussion Prompt • 10 min
- ○ Suggested & Further Reading
  Reading • 10 min

Module 6
Mummies and Mummification

Evolution of Royal Burials

Throughout ancient Egyptian history, the architectural style, location, and decoration of royal tombs evolved. Describe what type of evolutions or changes you can trace through these different burials. What do you think are some of the reasons for these changes? Consider concerns for security and secrecy, religious movements, funds and resources, capital locations etc. Finally, which royal tomb do you find the most interesting and why?

Here are just a few examples of royal tombs to consider when answering these questions:

- First Dynasty royal tombs at Abydos
- Djoser's Step Pyramid at Saqqara
- Great pyramids of Giza
- Unas' pyramid at Saqqara
- Montuhotep II's funerary complex at Deir el-Bahri
- Senwosret III's tomb at Abydos
- Ahmose's pyramid at Abydos
- Valley of the Kings of the New Kingdom
- Akhenaten's tomb at Amarna
